

Hi there,

Here's my weekly update for Apr 06, 2026...

[📄 Innovating with specific collagen peptides: a novel approach to glucose control and GLP-1 support](#)

Consumer interest in glucose control and GLP-1 supplements is surging, fueling a global boom in metabolic health solutions.

Newly developed collagen peptide compositions are enabling supplement manufacturers to engage with this trend using recognisable, evidence-backed ingredients.

As demand grows for natural, accessible approaches to blood sugar management, these innovations signal a new era for glucose [...]
